

White Slavery Problem Before Trades and Labor Congress

Canadian Senate and Hon. T. W. Crothers Bitterly Arraigned for Siding Against the Working Masses—Protection for Employed Girls in Factories Refused by the Senate—Rev. Dr. Shearer of Toronto Makes Scathing Denunciation.

Montreal, Sept. 24.—Both the Canadian senate and the minister of labor, Hon. T. W. Crothers, came in for a share of criticism at the hands of speakers before the Canadian Trades and Labor Congress today, the latter being openly accused of working in the interests of the employers as against those of the laboring man. The failure of the senate lay in refusal of that body to pass legislation which carried the lower house along the lines of protection for employed girls and women, in keeping them out of the clutches of the white slaves.

Dr. Shearer Attacks Legislators.

The first attack was made in the morning session by the Rev. Dr. Shearer, of Toronto, secretary of the social service council of Canada. He told the congress about the attitude of the council had succeeded in passing the lower chamber. This was, among other things, to provide for the raising of the age of consent to 18 years, and the making of all employers criminally responsible for the seduction of a girl in their employ. This had been killed in the senate and the doctor was sharp in his criticism of their action.

Crothers Gets His Share.

The attack on the minister of labor was the result of an outline of the British Columbia miners' strike brought up in the morning session by J. W. Wilkinson, of Vancouver, representing the American Federation of Labor. Wilkinson came up in the afternoon in the shape of a resolution. At the conclusion of the reading of the resolution it was stated there was one point in connection with so important a matter—it was unfortunate the minister of labor was not present.

Mr. Crothers it was said had made the trip to Vancouver Island during the strike, and on the back had made certain statements to the press which had been at variance with the truth.

Winnipeg Delegate Talks.

H. A. Riggs, of Winnipeg, reviewed Mr. Wilkinson's statements of the morning session concerning how 61 miners had been brought from Durban, England by the Canadian government. He, through the agency of the Cosmopolitan Employment bureau, had heard in Winnipeg that there was something wrong on Vancouver Island, and he took the miners to the immigration office in his city who, however, could do nothing. He had then advised the miners to continue to Vancouver where they would at least be taken care of by the United Mine Workers. Then the Hon. Mr. Crothers had come out to look into the situation.

More Crothers Criticism.

On his way back he had stopped in Winnipeg. Mr. Riggs had called on him in his hotel and was introduced by

the minister of labor to some friends as "The individual who had laid hold of those miners and incited them to the spirit of discontent, thereby causing them to become a curse on the community." "That," shouted Mr. Riggs, "is the type of man you have for minister of labor who at first impresses the unions as being a fair-minded person in his dealings. But there have been him with the mask off, not concerned with the actions of men who brought these miners to Canada under false pretences, but concerned only with retaining the man who is making efforts to have the country kept as clean as possible of his work."

Mr. Verville, M.P., labor member in the house of commons, interjected that it seemed a pity he was not kept informed with a state of affairs such as this. He had heard practically nothing about it. In future he wished to be surprised with such pieces of information as this in order that he might make them known to the world from the floor of the house.

Four resolutions were dealt with during the course of the afternoon, the remaining time being given to discussion of parliamentary procedure.

Bad Beer in Quebec.

International Organizer Albert Kuefer, of the United Brothers Workers, warned the delegates against the beer brewed in the province of Quebec. None of it, he said, was made by union brewers. Everywhere else eight and nine hour days were the rule, but in Quebec the men worked 14 hours, and received only from \$7 to \$13.50 a week as their wages. Girls employed by the brewers here received from a \$4.50 minimum to a \$6 maximum.

W. R. Trotter, Western Canada organizer, reported a total of 334 local unions in Western Canada, of which 440 were affiliated with the union and 74 were not.

BRITAIN'S NAVAL POLICY UNDERGOES ADJUSTMENT

Fleet Will Be Sent To Mediterranean and Imposing Manoeuvres Will Take Place.

London, Sept. 24.—The announcement by the Admiralty that a fleet comprising three battle-ships, three battle-cruisers, eight cruisers and eight light cruisers, will be sent to the Mediterranean early in November, coupled with the despatch of four large armored ships, which will have their base in the future at Bermuda, indicates a radical change in the British naval policy, which, on account of the friction between France and Germany in home waters for several years past, has been directed to the Atlantic. With the vessels in these waters, the visiting fleet, under Admiral Sir Stanley Colville, will make the most imposing naval demonstration ever assembled by Great Britain in the Mediterranean. The fourth cruiser squadron, leaving England September 29th, will proceed direct to Bismarck. It is due there October 10th, after which the ships will be scattered to visit various parts in the Caribbean.

WORKMEN FALL HUNDRED FEET TO DEATH.

Fort William, Sept. 24.—W. McLeod, a man thought to be 100 years old, fell 100 feet to his death last evening at Elavator D. The man was working in the roof that is being put on one of the banks of the new addition. Without warning the roof gave away, sending the man to the concrete floor, 100 feet below. Death is thought to have been instantaneous. It was not learned whether the man has relatives in the city.

A Tremendous Sacrifice of Men's Suits In a Great Three-Day Sale.

The Big Store's Entire Stock of Men's Suits in a Great Three Day Sale in an Attempt to Reduce Stocks and Make More Room.

Every Suit in the House Reduced

This is without doubt Edmonton's greatest clothing sale—the greatest clothing sale ever held at Ramsey's, therefore the greatest sale ever held in Edmonton. Just think of having the entire stock of this Big Store to select from—all new goods—every suit of dependable quality, make, and of stylish pattern. When our Fall and Winter clothing stock was bought we thought that by this time our big clothing section would have double the space it now has—We bought enough to fill the big space we expected to have—but later it developed that the clothing department could not be enlarged. Our stock is now too big for the space available—and in the next three days we propose to sacrifice our profits and sell enough suits to make our stock better fit our floor space. The results are these amazing bargains. Remember that when we say \$35 suits for \$23 we mean our regular \$35 value, not some other store's. Ramsey's regular values are always great—but now those prices cut away down should mean the biggest three days of clothing selling in the history of Western Canada.

Ramsey's Regular \$10.00 Suits for 7.50

Our regular \$10 group of Men's Suits consists of nobby blue serge suits and stylish tweed suits. The tweed suits are in brown and grey patterns—of good, heavy, serviceable cloth lined with strong serge. Coats are three button style with medium lapels—in this great sale reduced to

Ramsey's Regular \$12.00 Suits for 8.95

Men's and Young Men's Suits that we sell regularly at \$12 you can't duplicate in town under \$15. They are good fitting clothes made of fine tweeds in handsome medium and dark patterns—the patterns are copies of highest priced woolsens. In selling these suits at \$12 we were giving the best value in the West. Now on sale at

Ramsey's \$18 and \$20 Suits for 14.75

These are suits of handsome pure wool materials and the season's best patterns. Coats are two and three button models, pants finished and unfinished bottoms. Swell diagonal weaves and plain weaves, smooth and rough tweeds—blue, grey, brown, etc. Correctly tailored, perfect fitting suits—any suit in the house up to \$20 during this sale.

Ramsey's \$22 to \$28 Suits for 18.75

As fine a lot of suits as were ever shown at \$22, \$25 and \$28—soft, pure wool blue serges, grey mixtures and plain diagonal greys—elegant brown tweeds—hand tailored suits of rich appearance and guaranteed quality—men's and youngmen's models—all thrown on sale at the wonderful price of

Ramsey's \$30 to \$35 Suits for 23.50

These are swell suits for the swiftest dressers—elegant silk lined pure wool tweeds of best quality and nobbiest patterns. There are no better suits at any price for these are the best Canadian suits that money can buy. Smart young men's models—our regular \$30 and \$35 suits—your choice at

JAMES RAMSEY LIMITED

Phone Private Exchange 1195
ENTRANCES ON FIRST, HOWARD AND ELIZABETH STREETS.

Come Early for First Choice and for Good Service--Sale Starts Thursday 8.30 a.m.

Every suit in the house is included—nothing reserved—every suit in the Ramsey stock is marked, in fact, every piece of merchandise in the house is marked so you can see what you are getting. Please note that alterations will not be made at these reduced prices.

WEBSTER'S NEW ILLUSTRATED DICTIONARY COUPON

Wednesday, Sept. 24

SIX COUPONS OF CONSECUTIVE DATES CONSTITUTE A SET

Cut out the above coupon, with five others of consecutive date, and present them at this office, with the expense book amount here set out, to receive a copy of Webster's New Illustrated Dictionary, which covers the terms of the packing, express from the factory, checking, clerk hire and other necessary expenses. Send to the publisher, Webster's New Illustrated Dictionary, 100 N. 1st St., St. Paul, Minn., and receive your choice of these books.

The \$4.00 (Like illustration in the announcements from day to day.) This Dictionary is NOT published by the original publisher, but by the successors. ENGLAND COMMENTS ON AMERICAN CRITICISM

Explains Views Regarding Olympic Games Says American Has Not Right Idea of Amateur.

London, Sept. 24.—The Daily Telegraph, in a long editorial this morning, answers American criticism of Great Britain's reported intention to withdraw from the Olympic games. It admits that the English public looks upon the Olympic fund with coldness because it means the breaking down of the spirit of amateurism.

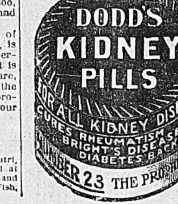

"The question is," says the Telegraph, "whether athletic prowess, as such, when made a matter of business, is or is not helpful to the national welfare. America thinks it is. So, too, to a large extent, do both Germany and Scandinavia."

"Apparently the mental attitude of an amateur, to speak quite frankly, is not yet understood in America, Germany or Sweden. At all events, it is conceivable that the national welfare, in the highest and truest sense of the term, may not be so dependent on professional athlete excellence as our American critics seem to think."

ONE BAR ASSOCIATION.

Winnipeg, Sept. 24.—Canada can have but one bar association and the more for the formation of such an association should come from Winnipeg, because Winnipeg is the centre of Canada. This declaration was made by Hon. C. J. Doherty, the minister of justice, at a banquet in his honor given last night by the Manitoba bar association. Mr. Doherty defined in length the relations which should exist between the minister of justice and the bench and the bar of the provincial judiciary.

Mr. Doherty left at 11:30, 21st street for the west, and will visit Saskatoon, Prince Albert, Edmonton, Calgary, Vancouver and Victoria.

DEATH OF "BIG TIM" POINTS TO FOUL PLAY

Former New York Congressman Believed to Have Been Murdered by Thugs and Body Found on Track.

New York, Sept. 24.—Tramman who reached the body of "Big Tim" Sullivan was a few minutes after the train passed over it, found it cold, with only a slow flow of blood, according to testimony understood to have been given yesterday to Assistant District Attorney Groch, who conducted an inquiry into the death of "Big Tim." Reports that the congressman's death was not accidental, and that he had not met foul play at the hands of thugs, was placed his body on the rails to hide the crime, led to the investigation. A policeman in a Harlem room, identified the body on September 19th, after it had lain nearly two weeks unrecognized.

The trainmen were witnesses before Mr. Groch, who examined also the nurses who were with the congressman during his last days. The prosecutor said he would not decide upon the charges that in the last provincial legislature Taylor offered certain important public bills to support his candidature. It is not believed that this is the cause of Taylor's resignation as it was presented before the accusations were made.

APPEAL CASE DECIDED IN FAVOR OF SECOND

Suit Brought to Recover Damages for Wrongful Conversion of Scrip Is Dismissed.

In the Supreme Court yesterday the appeal from the decision of Mr. Justice Simmonds in the case of Emma J. McKay versus Richard Secord, was dismissed. The plaintiff claimed damages for the conversion of certain scrip which was in her name, but sold by her father to Mr. Secord for \$190. The plaintiff testified in the hearing of the case that she was 18 years old when the document was sold to Mr. Secord and that later when she married her husband demanded that the defendant deliver the certificate, but was refused, the defendant stating that he did not have the document. The court decided that if any conversion had been made, it was made prior to the time alleged in the suit.

TAYLOR HAS RESIGNED. Calgary, Sept. 24.—H. B. Bennett, M.P., yesterday stated that it was true that Mr. Taylor, ranch inspector, had presented his resignation. He would not say what Mr. Taylor had taken such a course. Last week in the provincial legislature Martin Wood made charges that in the last provincial legislature Taylor offered certain important public bills to support his candidature. It is not believed that this is the cause of Taylor's resignation as it was presented before the accusations were made.

GENERAL ELECTION CALLED.

St. John's Newfoundland, Sept. 24.—Hon. Walter Davidson, governor of Newfoundland, yesterday dissolved the legislature of Newfoundland and called a general election in the colony for October 20. Both the premier, Sir Edward Morris and Sir Robert Bond, the former premier, now leader of the opposition, have campaigned their plans for an active campaign.

When Appetite Fails and Digestion is Bad

There is Danger Ahead for the Man that Neglects Nature's Warning.

Dyspepsia Tendencies are Serious and Should be Treated Accordingly

There is a strong moral in the statement of James Schrum, of Pleasant street, Dartmouth, N.S. Like thousands of people he was failing in health because his stomach and digestive organs were out of repair. His vitality was slipping away; he was being ground every day.

"I could not have held on much longer. I was wasting away simply because no remedy I used gave tone and strength to my stomach. The vital forces of my system seemed dead. I was advised to try Dr. Hamilton's Pills. What hidden weakness they worked out I don't know, but in a miraculous way they have made a new man of me. My stomach from this time on is cured, rich blood now runs through my veins—clear skin and unmistakable evidences of health and vigor. I feel every day. Dr. Hamilton's Pills have certainly mastered the secret of curing the sickly, nervous man and I strongly urge every one in failing or lost health to use this grand remedy."

Dr. Hamilton's Pills of Mandarins and Butterfat are purely vegetable—25c. per box, five for \$1.00, all druggists and stores, or by mail from the Cataract Co., Buffalo, N.Y., and Kingston, Ont.

STOLEN HORSES ARE RETURNED TO OWNERS

When Legend of Horse Thieves Was Arrested Gang Abandoned the Troop and Scattered.

Amos, N.D., Sept. 23.—Out of 21 horses seized by the Canadian mounted police near Estevan, 12 have been identified as belonging to North Dakota farmers, having been stolen since Aug. 1, and yesterday several other farmers went to Estevan in an attempt to identify the horses. The capture nearly of W. A. Duff, and his sentence of three years, has effectively broken up a gang of four horse thieves. The other three escaped.

They had arranged to pasture "the stolen" horses in the Canadian park, and when Duff was arrested they left the country, abandoning their horses. Under the plan, the horses were stolen in North Dakota, and rushed across the Canadian boundary. Over 70 horses were seized during August in this district.

TO ASCERTAIN AUTHORITY.

Saskatoon, Sept. 23.—Immediate steps will be taken to ascertain whether the municipal grain commissioners are to have new positions in regard to the retention of a site for the internal storage elevator in Saskatoon. The city council last night directed the commissioners to view the grain board at once. This action follows after the other three free sites by citizens. Under the present agreement between the city and the grain commission the city material to land over to them a site already approved of by them to the west of town, which is to cost the city \$2,000.

NEWBRO'S HERPICIDE KEEPS THE SCALP CLEAN AND STOPS THAT ITCHING

If your scalp itches you have dandruff. The itching is due to the increasing growth of the microbe that causes dandruff and this sets up an irritation in the scalp. Itching scalp is merely a warning; for wherever there is dandruff there is bound to be a loss of hair. Falling hair is never so slight that it may be disregarded. Every hair that falls is bringing you just so much nearer the inevitable baldness.

To stop itching you must get rid of the dandruff. The removal of the scalp accumulation is but one of the results that may follow the intelligent use of Herpicide. The brilliant, glossy beauty of the hair, formerly thin and falling out, can be associated with a clean, healthy scalp. There is a world of satisfaction in the use of Newbro's Herpicide because you can see the results.

When troubled with dandruff and your hair growing thinner every day it is no time to experiment with some off brand preparation or a remedy which is sold as "just as good" as Herpicide. What you want is results—results that are assured. Newbro's Herpicide is guaranteed to do as claimed or money for first bottle refunded. Why take chances with the unknown when you can get \$1.00 and \$1.00.

Applications at the better hairdressers and hair dressing parlors. Send ten cents in postage or silver to the Herpicide Company, Dept. S, Detroit, Mich., for sample bottle and booklet on the care of the hair.

JOINT CONTROL OF OCEAN RATES IS LATEST IDEA

Chairman Drayton of the Railway Commission is Back from Conference

BRITAIN AND CANADA WOULD CONTROL THEM

Unable to Give Out Results of His Mission Until Report is Submitted to Government.

Ottawa, Sept. 23.—An entirely new idea, "is how Chairman Drayton, of the railway commission, characterizes the proposed joint control of ocean rates by Great Britain and Canada. The chairman has just returned from a month's absence in the old country, where he took up with the British authorities the whole question of the regulation of steamship charges.

"I went into the matter with the British board of trade and colonial officials," said Mr. Drayton. "There is no tribunal already having jurisdiction over ocean rates. In fact, it is an entirely new idea. I cannot, of course, give any idea of my report until it is submitted to the government, but I found the British authorities very anxious to deal with it. While my time was almost entirely taken up with this matter, I also witnessed demonstrations of some new automatic train controllers which are being experimented with by British railways, including one which automatically stops a train to prevent a collision, but whether it would continue to work under some inches of ice and snow is quite another question."

CABINET MINISTERS TO ATTEMPT A COMPROMISE

Informally it is Said This is the Way the Irish Trouble May Be Quelled for the Present.

London, Sept. 24.—The Pall Mall Gazette said yesterday that important conversations have informally passed between cabinet ministers and opposition leaders and that prospects of an attempt at a compromise on the first question are sensibly improved.

COMMUTERS' POSITION

Jerome S. McWade, one of the leading members of the New Haven and Hartford Commuters' association, said in his Standard office:

"We commuters, we common people, must protect ourselves. Otherwise, we'll be queezed flat between the officials and the workmen. We'll be like the two Americans in Paris."

"Once, in Paris, in the Bois, I noticed a tremendous disturbance, and my chauffeur to hurry to the scene."

"We found two Americans and two cabbies rising terribly. We inquired into the affair, and learned that the cabbies had bumped their cabs. After the bump they had, venged, from swinging they had turned to abuse and finally one cabby had said:

"If you don't shut up, I'll whack your customer over the head with my whip."

"You hit my customer," retorted the second cabby, and I'll hit yours."

"Then the first cabby had given the second's customer a good cut, the second cabby cut the first's customer in return, and that was what the row was all about."

A \$4.00 DICTIONARY for EVERYBODY

PRESENTATION

Just think what the opportunity to possess the latest, most up-to-date Dictionary of the English Language means to you, then read below how you may obtain one or more of these valuable books. We have just made an arrangement with the publishers of Webster's New Illustrated Dictionary, whereby we are able to offer the readers of The Capital the unparalleled opportunity of getting this invaluable reference work on practically their own terms.

Everybody needs a dictionary. You need one, your wife or your husband needs one, and most of all, your children need one. A Dictionary is, in fact, more essential than any other book required in this course. This being an undoubted fact, read every word in this announcement and then let us know that the good people of Edmonton and vicinity appreciate this opportunity by the promptness of your action in the matter.

Partial contents of Webster's New Illustrated Dictionary

Based upon Noah Webster's Dictionary, revised and brought UP TO DATE in accordance with the most eminent English and American authorities on spelling, pronunciation and definition, and especially designed to meet the popular demand for a CONVENIENT, complete and RELIABLE Dictionary.

It contains all the words of the English language that are not peculiarly appropriate to a Dictionary of technical terms; it gives the spelling and pronunciation of Plurals, and indicates the use of capital and small letters in writing every word in the vocabulary; it gives the Past Tense and the Particles of all verbs not regularly formed by the addition of -d, -ed, and -ing; the Pronunciation of each word is plainly indicated by phonetic spelling; the Definitions, comprehensive, yet concise, are accurate and reliable.

Preceding the Dictionary proper will be found a treatise on ABBREVIATIONS of the Parts of Speech and their grammatical signification. Also a discourse on the Origin, Composition and Derivation of the English Language.

The ANALYSIS of the "Principles of Grammar" will fill a long-felt want in promoting the correctness of speech, both spoken and written.

Under the head of "SIMPLIFIED SPELLING" will be found the rules as adopted by the SIMPLIFIED SPELLING BOARD, and giving a complete list of 300 words spelled in two ways, of which the Board says, "Choose the simpler spelling."

Finally is given a complete KEY TO PRONUNCIATION.

Surprising results are obtained in looking up the Spelling, Pronunciation and Definition of the

NEW WORDS

which have been incorporated into our language only yesterday, as it were. For instance: Aviator, Biplane, Brainstorm, Cordite, Okapi, Carburettor, Dictograph, Hookworm, Krypton, Lettergram, Nickelodeon, Osleria, Stovaline, Taxicab, Zemule, Hangar, Equilibrator, etc.

Maspero Cigarettes are universally recognized as being the most perfect Egyptian Cigarettes on the Market. They are smoked all over the world.

IMPROVEMENT OF
HIGHWAYS NEEDED

Rapid Settlement of Canora
District Causes Demand
for Better Roads

Canora, Sask., Sept. 24.—Good roads for Canora and the four municipalities bordering on the town are now being regarded as the next important improvement demanding the attention of local property owners. So rapid has been the settlement of Canora's outlying farming country within the past two years, it is stated, that road improvement undertaken along any one of the highways leading from the town would be of certain benefit to dozens of prosperous farmers for whom Canora is a shipping and marketing centre. With increasing population and production, a steady increase in general traffic is now noted throughout the district, government records indicating that something like 21,000 horse-drawn loads have been taken up within a radius of 60 miles of the town.

BUILDING PERMITS DOWN
The building permits issued during the week total \$172,500, as compared with \$151,550 last week. This week most of the permits issued are for residences and warehouses, while last week there were a number of large buildings in the list.

QUEER COLLECTOR
IS FLOURISHING

M. Marino Durand Picks Up
Articles Once Used by
French Statesmen.

Paris, September 24.—Until recently the man who made a collection of worn doors was supposed to have had the most extraordinary collection in the world, but he is beaten by a collector from the senate and the chamber of deputies. The collector in question is M. Marino Durand, well known in the political world, who passes most of his leisure time in the chamber of the senate, where he makes it his object to appropriate all sorts of unconsidered trifles belonging to well-known men.

With these petty objects he formed a curious little museum, among the treasures of which are a lock of hair from the head of M. Clemenceau, a white scarf which belonged to M. Meunier, a tie of Gambetta's, a glove of Jules Ferry's, a pen used by M. Goblet, a handkerchief that Count Boni de Castellane—once—owned, a button dropped by President Faure, and the cover of an umbrella once carried by M. Loubet. In all there are more than 1,500 of these articles in the old gentleman's "museum."

M. Clemenceau has no hair now, but it was black when Collector Durand put it into his museum. The celebrated statesman offered \$20 for it, but the collector declined the offer.

SNAKES HOBBY OF
JAPANESE WOMEN

Society in Far East Cultivating Fancy for Small, Toxic Serpents

Tokyo, Sept. 24.—To meet pets of snakes is the latest hobby of Japanese society. Fashionable women are cultivating a fancy for small and live serpents. They have about them the harmless "spotted" snakes and striped snakes which are easily tamed. The most productive districts for snakes in Japan are confined to the sections near Tokyo and Nikko. Here they are caught in large numbers. Japanese snake catchers declare that they will not be stopped by the "poisonous breath" of the reptiles. Other uses for snakes have been found. They are popular as tonics for the digestive organs and some are used successfully as a cure for pulmonary consumption. There is the food question too. In the districts around Nikko rice with snake frites is considered a most royal dish. The viper is also good as a cure for stomach trouble, if taken soaked in Japanese sake.

PEACE SECRETARY
SECRETARY HERE

E. H. Scammell, of Ottawa, Is
Endeavoring to Enlist Sym-
pathy in Edmonton.

E. H. Scammell, F.R.C.I., of Ottawa, organizing secretary of the Canadian Peace Conference association, which is co-operating with similar associations in Great Britain and the United States, with a view to the celebration of the centenary of Peace between the British Empire and the United States, which dates from the signing of the Treaty of Ghent on Christmas eve, 1814, is in the city for the purpose of organizing the work in the province of Alberta.

Seen at the King Edward hotel this morning Mr. Scammell was quite ready to talk about his work. "The circumstances, events, and memorials we plan are to commemorate a great and glorious victory," he said, "not a victory won by devastation and slaughter, but a more wonderful victory of peace. It is nearly 100 years since the roar of cannon was heard across the international border and it is not that we should recognize that fact in such a manner and should impress it so strongly upon our children that conflict upon the North American continent will for evermore be an impossibility."

"We have not lived in amity with our neighbors for 100 years, in fact there have been many occasions when war seemed inevitable. Many of our disagreements have been most serious, but every one has been settled by an application of the sound common sense for which the Anglo-Saxon race is famous. We have an international boundary line of 3,840 miles, the longest in the world and it is a unique thing to show to the war camps of Europe that it is possible for two great peoples to live under these conditions without garrisons for offence or defence."

"The celebrations we contemplate will do many things, all of them good. They will show the world that disputes can be settled by arbitration, they will improve our knowledge of history, they will increase the mutual friendship between the British Empire and the United States and they will impress upon the minds of our children that a sacred trust has been placed in their hands to make the future even more cordial than the past."

"While the celebration programme is a wide one its principal direction will be along educational lines. The children have the most important place. The peace of the future will be in their keeping and it is the aim of the committee to let them feel this."

"The science, rostrally outlined, proposes to take a modified course of the regular subjects of the school program, leaving the remainder of the day to be devoted to industrial, commercial or domestic training, with a view to the pupils' future careers."

An experienced director has been engaged to direct this department of the school board's work and he has already issued forms to all pupils in grades six and seven asking for information as to the life plans of each. When answers have been received and classified the work of dividing up the subjects to be taught will be taken up. That the curriculum of the present day school has become over-burdened is the contention of Robert Massey, who will have charge of the new department of educational effort. "The aim in the old days was culture first, then utility. Later educationalists tried to give utility to the front at the same time preserving the culture subjects. We maintain that as much culture and perhaps more can be gained in learning woodwork or the art of putting than can be obtained from committing to memory the names of the wives of Henry the Eighth."

"Give the young people training for choice as well as then we will find that they like best they automatically choose one for after life. They are literally watching us carefully for their own vocation and as they will see many branches of industry in operation will ultimately find where they best fit in."

THE RUN ON EGGS.

Eggs to the right of them.
Eggs to the left of them.
Spattered and splattered.
Eggs to the top of them.
Over four hundred.

The local stock company, many of whose members had witnessed plays in regular theatres, had announced a second performance of "The Fall of the House of Schmitz."

At the first performance they had played to a house of 235,50, which the management had absolutely refused to refund.

Sam Soakem, manager of the general store, was as assumed as he was a man in town seemed to need eggs.

"The more eggs people gits," said Sam, "the better it is for 'em."

"That's why we're goin' to give 'em so many," said Sam.

The opera house was crowded from pit to back door. McMillan, the manager of the deficient organization, put one eye to the peep-hole in the curtain.

"All ready for the big opening scene!" he yelled.

The curtain rose.

So did the audience, as one man.

EVERYBODY HAS A FOUR-FOOT SIDE-walk in Sumnerland; main street six feet. \$10, \$25, or \$50 secures a lot. Free auto trip every afternoon 2 p.m. See Page 9. S. F. Munson, Broker, 30 Jasper Ave. E.

PRE-VOCATIONAL
EDUCATION FOR
CALGARY SCHOOL

Will Endeavor to Give Children
Learning of Practical
Nature

EXPERIENCED DIRECTOR
IN CHARGE OF WORK

Modify Regular Course and
Add Commercial, Industrial
and Domestic Training in
Plan Adopted.

Calgary, Sept. 24.—Great interest is being taken in the new pre-vocational course of study which will open within a few months in one of the public schools of Calgary.

The science, rostrally outlined, proposes to take a modified course of the regular subjects of the school program, leaving the remainder of the day to be devoted to industrial, commercial or domestic training, with a view to the pupils' future careers."

An experienced director has been engaged to direct this department of the school board's work and he has already issued forms to all pupils in grades six and seven asking for information as to the life plans of each. When answers have been received and classified the work of dividing up the subjects to be taught will be taken up.

That the curriculum of the present day school has become over-burdened is the contention of Robert Massey, who will have charge of the new department of educational effort.

The aim in the old days was culture first, then utility. Later educationalists tried to give utility to the front at the same time preserving the culture subjects.

We maintain that as much culture and perhaps more can be gained in learning woodwork or the art of putting than can be obtained from committing to memory the names of the wives of Henry the Eighth.

Give the young people training for choice as well as then we will find that they like best they automatically choose one for after life. They are literally watching us carefully for their own vocation and as they will see many branches of industry in operation will ultimately find where they best fit in.

IMMIGRATION IS
DEPLETING ARMY

Young Men of Austria Go to
United States and Army
is Too Small.

Vienna, Sept. 19.—So many of the young men of Austria-Hungary have been emigrating to Canada and the United States that the armies of the monarchy lack from 80,000 to 100,000 soldiers this year to bear arms. These men

complaint. Nervalline brought me back to normal in all the time," writes J. C. Coughlin, of Saskatoon, "For ages I have been subject to an aching, dragging feeling at the base of the spine. When attacks came on I was unable to walk. Nervalline appeared as if I had taken cod liver oil and a soreness developed all through my muscular system. When in Winnipeg one day a friend spoke to me of Nervalline and I bought a bottle. Nervalline was the best half-dollar I ever spent. It did so much for me. It is hard to convince some people of what a really good medicine can do, but there will be no doubt about Nervalline. I can't give you a testimonial for Nervalline. I use it for everything now. It's fine for Rheumatism and Neuralgia and all sorts of muscular pain and aches quickly. But naturally, if possible, I don't use it. I have had a severe cramp in ten seconds, and, as for gas and upset, or sour stomach, nothing could excel Nervalline. I think it should be kept in every home as a protection against all sorts of ailments. I cure ills that resist other treatments.

showed that he had a heart by taking up a collection for a boxer he had whipped, and who proved to be a carpenter out of a job, who had posed as a fighter and got a chance in a preliminary in order to cop a little cash to buy food for his wife and starving children, poor things. That money put the poor carpenter on his feet again, and now he owns a nice little home of his own, with stationary wash tubs, a phonograph and open-plan-

HEREDITY AND THE CHILD.

Fred Mortimer Lewis, the humorist of the Houston Post, has a wide reputation for a peculiar charity-finding humor for the ever-ready homestead baby. He is quoted in a recent issue of the Literary Digest as saying: "Some people worry themselves too unnecessarily about heredity. If the child inherits a healthy body I believe it is about all they should ask. It is my theory that environment amounts to a great deal more in the proper raising of a child than heredity." Here child gets its head, or sets its feet on board, exactly as the child naturally would be brought up. The question about heredity can only modify character and physical predisposition. It cannot eradicate positive tendencies toward lines of conduct or disease.
